LinkedIn: <https://www.linkedin.com/in/saimasanjeedakhan/>

GitHub: <https://github.com/saima-khan1?tab=repositories>

Junior Frontend Developer with hands-on experience building responsive, high-performance web applications. Skilled in HTML5, CSS, JavaScript, and modern frameworks such as React and Vue. Adept at working in Agile environments, maintaining clean, scalable code, and collaborating within cross-functional international teams. Demonstrates strong attention to detail, eagerness to learn, and a proactive approach to problem-solving.

KEY SKILL

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, TypeScript, Tailwind CSS, Material UI, Vue (beginner level)
- **Backend:** Node.js, REST APIs
- **Version Control:** Git, GitHub
- **DevOps & Tools:** Docker (basic), CI/CD pipelines, Vercel
- **Testing:** Jest, Cypress, Vitest
- **Methodologies:** Agile, Scrum
- **Other Interests:** AI-enhanced tooling, automation, and data visualization

Projects

Large JSON Handler FullStack Project *(used by teams in Ikea)*

Designed and implemented a high-performance backend (Node.js, TypeScript, JSONStream, PostgreSQL) for processing large datasets.

Built efficient API integrations with streaming, search, and pagination.
Deployed on Vercel, applying cloud deployment and scalability practices.
Delivered measurable improvements in data visualization and insight extraction.

Production URL: <https://game-search-app-beta.vercel.app/>

CAREER HISTORY

Hyperstack AB

Oct 2024 – Dec 2024

Full Stack Developer

Worked on CareLabs Kiosk Application, A Self-check-in system for clinics, enabling booked appointments, walk-ins, and new appointment bookings, with an admin panel for staff management.

- Developed and maintained scalable self-check-in web applications using React, TypeScript, and Node.js.
- Optimized UI responsiveness and accessibility across multiple devices.
- Improved API response time by ensuring smoother client experience.
- Implemented CI/CD pipelines to enhance deployment efficiency.
- Collaborated with international Agile teams for iterative development and feedback cycles.

Hestia Agora

Feb 2024 – May 2024

Frontend Developer

Hestia Agora, founded in 2021, focuses on enhancing elderly care by developing digital tools that facilitate early identification of malnutrition, measure quality of life, and calculate the impact of preventive measures on both costs and the well-being of the elderly.

- Built responsive, accessible PWAs using React.js and TypeScript.
- Created reusable UI components, improving frontend delivery time by 40%.

- Collaborated with design and product teams to ensure seamless UX/UI alignment.
- Engaged in Agile sprints, retrospectives, and team code reviews.

Babelify App

Oct 2023 – Feb 2024

Full Stack Developer

A language learning application.

- Built a language-learning web app using React, Node.js, TypeScript, and GraphQL APIs.
- Deployed and maintained using Hasura Cloud with integrated authentication.

FooCoding

Feb 2023 – Oct 2023

Full Stack Web-Developer Trainee

Tech training organization focused on full-stack web development with real-time assignments and mentorship.

- Gained strong expertise in **Frontend Development** using **React.js** and **TypeScript**.
- Developed and maintained applications with **Backend Development** experience in **Node.js**.
- Ensured high-quality code through familiarity with automated testing frameworks.
- Advocated and applied **Agile methodologies** (Scrum, Kanban) to enhance team productivity.
- Developed **problem-solving** and **communication** skills while working collaboratively in team environments.

Hackathons & AI Exploration

OutSystems AI + Low-Code Hackathon – Malmö, May 2025

Participated in building AI-enhanced solutions using low-code platform OutSystems.

MindLab AI Hackathon – MindPark Helsingborg, April 2025

Collaborated on AI-based prototypes focused on automation and user experience.

EDUCATION & QUALIFICATIONS

K.BN. College of Engineering, VTU University, India
Bachelor of Engineering (Instrumentation & Technology)

Certification & Training

Full Stack Web-Developer
FooCoding, Malmo - 2023

Agile & Scrum Methodologies Training

Languages

- **English:** Native.
- **Swedish:** Basics (Learning for fluency).
